

B.S. in Mathematics @ IIT Madras

A four year B.S. program with an objective to educate students both in fundamental and advanced mathematics, with possibly interdisciplinary expertise and integrated exposure to applications. With a strong background in fundamental areas and computational laboratories, it is expected that at the end of the program, the students will be well prepared for research in mathematics and for emerging careers in data-centric, quantitative and AI-driven domains that demand strong mathematical foundations.

- Total seats: 33
- Through JEE (Advanced): 20
- Through INMO: 13
- INMO Admission details: <https://ugadmissions.iitm.ac.in/bsmath/>
